

T-HOOF® Moisturizer & Conditioner Product Description and Competitor Comparisons

Essential Equine- T-HOOF® Moisturizer & Conditioner

Contains no alcohol or wax.
Non-petroleum or wax-based.
Deeply penetrating, contains Jojoba oil, high in Vit. E.
Non-greasy, truly moisturizes rather than just coating hoof.
Natural & pharmaceutical conditioning agents.
Excellent hand cream for split fingertips, cracked nails, chapped skin.

Our Competitors

Hoofmaker, Hoofmaster, Rio Vista Hoof Treatment, etc.

Most current commercially available products contain at least one form of alcohol and oftentimes several different types of alcohol. Alcohols are drying agents! Wax and petroleum based ingredients can 'clog up' the hoof wall, as well as hands and fingernails (Many of these products are used by people on themselves).

None of the other products contain Jojoba Oil, nature's most potent penetrating remedy for moisturizing and conditioning.

Hoof Heal

Fish oil based preparation.
