

Essential Equine- TEA- PRO[®] Wound Spray

TEA-PRO[®] Wound Spray Product Description and Competitor Comparisons

Essential Equine- TEA-PRO Wound Spray

All natural ingredients

Contains no alcohol

Non-stinging, non-caustic

Anti-microbial activity (Tea Tree Oil)

Stimulates epithelial growth or skin closure (goldenseal)

Helps remove exudates from wounds for more rapid healing (comfrey)

Actually retards proud flesh and allows for an even bed of granulation tissue and healing.

Can be used directly in open and deep wounds, including puncture wounds

Can be safely used on horses.

Our Competitors

Schreiner's Healing Solution

Contains alcohol, can be stinging

Contains cayenne as a counterirritant, stings & can irritate

More expensive than Tea-Pro[®].

Cut-Heal Aerosol Wound Spray & Liquid Wound Care

Similar products; packaged differently
