Reduces Scarring

No Alcohol, Petroleum or Wax

Anti-inflammatory, anti-microbial, anti-itch

Also safe on small animal/pets- hot spots, lick granulomas, rashes, abrasions, burns

### Our Competitors

#### Aloe Heal (Farnam):

Petroleum Based Formula

Contains small amount of aloe vera only

No other healing or anti-inflammatory ingredients

#### Corona Ointment:

Petroleum Based Formula

Active ingredient is quinolone

Contains lanolin, which can retard healing process if used in deep or open wound due to thickness of application

#### Cut-Heal Multi-Care First Aid:

Ingredients are Crude fish oil, turpentine, sulfuric acid, balsam of fir, very small amount of Tea Tree Oil

No listed antimicrobial activity, no anti-inflammatory agents

#### Nolvasan Ointment (Chlorhexidine):

Proven anti-biotic ointment but FDA has periodically removed it from shelves due to inconsistent 'activity' of the product

No anti-inflammatory or anti-fungal activity
